

MEMORANDUM

TO: NLA Members

FROM: Bill Herz
Bradford Frisby

SUBJECT: CDC Guidance for Manufacturers

DATE: March 31, 2020

The National Association of Manufacturers (NAM) recently submitted several questions to the Centers for Disease Control (CDC) relating to how manufacturers should handle various aspects of COVID-19 outbreaks at their facilities. CDC responded by creating a new “Q&A” document that addresses NAM’s questions. A copy of the “*CDC Q&A on Manufacturing Facility Protocols*” is available for review [here](#).

In addition to the Q&A document, CDC has an entire webpage containing guidance materials for businesses that can be consulted for advice on how to address various aspects of the COVID-19 pandemic. This is a comprehensive webpage with many links to other CDC materials as well as documents from other agencies, such as the OSHA/HHS guidance. The CDC’s *Interim Guidance for Businesses and Employers to Plan and Respond to Coronavirus Disease 2019 (COVID-19)* webpage is available at the following link:

<https://www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html>

NLA will also add these CDC links to the COVID-19 section of the NLA website.

If you have any comments or questions, please feel free to contact Bill at wcherz@lime.org or Bradford at bfrisby@lime.org.
